

GU10 Tiltable Surface Downlight

Installation instructions for JC84318 & JC84319

Warnings & Cautions

- To avoid electric shock, serious injury or property damage, isolate power before installing, removing or installing the product
- It is recommended that luminaires are installed by a qualified electrician and the installation complies with the local current wiring regulations
- It may be necessary to upgrade your MCBs to allow for increased inrush current
- This product is for indoor use only.
- Any broken or damaged parts should be replaced as soon as possible. JCC will not accept responsibility for claims arising from sub-standard installations; which will void the warranty
- For ceiling mounting only, not suitable for wall mounting
- Do not use halogen lamps in these products

INSTALLATION

ENGLISH

Specification: GU10 cap 7W LED max (lamp not included)

Available finishes: Black(BLK) or White(WH)

220-240V~ 50/60Hz Class I

Figure 1. Mains Input

Installation procedure

1. Loosen small screws to remove main body from mounting plate.
2. Use the mounting plate as a template for fixings. Secure mounting plate to ceiling.
3. Connect the mains input as shown in Fig 1.
4. Refit main body to the mounting plate and tighten screws to secure.
5. Fit lamp into lampholder.
6. Gently pull lamp cover over onto the front of the lamp, carefully release the springs so the lamp sits in the cover. Push cover back up into the fitting.
7. Turn on supply and test for operation.
